OK, so "*Christmas In The Middle Of July*" was a plot dreamt up by Ollie Dee & Stannie Dum to get into Silas Barnaby's house in the 1934 movie "*Babes in Toyland*".

Now here I am some 75 years later, this **STUGOTS** songwriter from **BROOKLYN**, using the same ploy to get into your home....Oh well, I'm a big fan of *The Tried & True*.....especially the TRUE.

.....and the truth is, this *Stugots* from Brooklyn has made some significant contributions to **THIS THING OF OURS**. In the past few years in my role as Engineering Project Manager at **ABC RADIO NETWORKS** I developed and deployed the first radio network, digital audio file exchange portal in the radio business. Today, **ABCSPOTDEPOT.COM** is responsible for the exchange of over 100,000 commercials, news, music, and program audio files per month.

Then came the digital asset exchange invention known as **CRIS**, sort of the Napster of broadcasting. Then came **ABCFMNEWS.COM**, and **ABC AMERICAN GOLD**, & **COUNTRY COUNTDOWN**, and so on...\$\$\$ making services that **I DELIVERED !**

Musically, the past year has been fairly OK for me as well:

HEY LITTLE CUTIE was in the **TOP TEN** of the **BROADJAM.COM** charts 3 times; and in the **TOP 100** at **GARAGEBAND.COM**. The song was also signed to a Publishing deal. **TRIPPIN'** was accepted by **INTERSCOPE/A&M** for an "extra" on **FERGIE'S** 2006 debut record (but wasn't used) and along with **FREE TO FLY** is currently under review by a prominent Artist Management group. **LITTLE SISTER** was picked up by a very popular Music Library, and **KARAMU (The Kwanzaa Song)** is being considered for a Children's record.

The point is that I do have a few things that I can bring to the table for you. My original material has some great potential if performed by the right artist, produced with the right flash by the right producer, or placed in the appropriate media. This is where my resources fall short., and where YOU have the expertise to partner with me.

All I'm asking from you is the same confidence & opportunity that a huge **DISNEY** owned company like ABC Radio Networks has given me to develop and deliver for them.

- Let's get "*Free To Fly*" to a new, hot female artist and produce it for Top 40 radio!
- Let's take a shot on the "*Kwanzaa Song*" with a children's vocal ensemble, and create the next "*Rudolph The Red Nosed Reindeer*" [holiday hit!](#)
- Let's place "*Trippin*" with a young female trio and restart the TLC type craze with a more hip-hop edge.

By the way, [the enclosed CD really is a gift to you](#), and not just a promotion. Especially the first song which is NOT one of mine. It is the sweetest sounding acapella song I've ever heard called **MY FOOLISH HEART**. Listen to the lead singer on this tune (it's not me). He will melt you like GELATO IN THE MIDDLE OF JULY. The rest of the CD includes my music as mentioned here, with more at www.JoeCurcio.com.

Thanks for listening, Enjoy My Foolish Heart, and God Bless
Sincerely Joe "Kirsch" Curcio
